

RESILIENT TOGETHER: NEZDA'S SUPPORT FOR LA UNION AFTER THE TYPHOON

In the aftermath of the devastating typhoon in La Union, Nezda Global launched a large-scale relief mission through Nezda Seve in partnership with Shrimad Rajchandra Love & Care, mobilizing over 25 employees to deliver critical support to affected communities. The initiative reached more than 800 families, impacting over 2,000 individuals with a full month of essential supplies, including food, groceries, cooking oil, and hygiene kits. This ensured families could recover with stability, return to their fields, and rebuild their lives with confidence. The effort was formally recognized and appreciated by both the local community and the Provincial Government of La Union. Nezda Global remains committed to driving powerful, purpose-led impact where it matters most.
